

INFECTION PREVENTION/ PPE CHAMPION TRAINING FOR CARE HOMES

This training has been mandated by the government and we need all homes to have at least one Infection Prevention Champion trained by the end of May.

The infection prevention teams at Bradford Council and Bradford District Care Trust have developed a free infection control and PPE training package for care homes. The package is being offered as part of a national initiative to provide support for care homes in managing the challenges of COVID-19 both now and in the future.

Staff from the Local Authority and the CCG will be contacting homes to book training which can be accessed either by in face to face sessions with small groups (Social distancing will be observed) or remotely through various remote meeting apps or the Telemedicine Hub.

Sessions will be available on Friday and over the weekend (including Bank Holiday Monday).

Topics covered will include:

- COVID-19 facts and
- Back to basics infection prevention and control
- PPE practical session
- Sessions will be approximately 2 hours.

Please note:

This is a **train the trainer** offer so only need one or two people from each home to attend in the first instance.

Please email to book:

Carehomes@bradford.nhs.uk

Slots are available tomorrow and over the weekend.
