

**BRADFORD**  
HEALTH & SOCIAL CARE  
ECONOMIC PARTNERSHIP

## SKILLSHOUSE

### RECRUITMENT OPPORTUNITY FOR CARE SECTOR

24 workers have been recruited for the casual care worker 'pool' in Bradford. These individuals have:

- undertaken a 3 day induction knowledge- based training programme,
- completed a 5 days practical work experience within Council 'in-house' care service

These workers are **now available** for temporary or permanent care for support worker positions within independent sector

Employing these staff on a temporary or permanent basis would **support your existing workforce** to:

- Support staff well-being, gain a period of rest / recuperation before next COVID19 wave
- Take annual leave over the summer, to minimise accruing annual leave
- Undertake necessary mandatory or refresher training, or to learn new skills and knowledge

Consider using **IPC funding** to support/enable existing staff by:

- Build workforce capacity prior to next COVID19 wave (and in longer term winter pressures)
- mitigate staff reductions due to the ongoing test, track and trace process.
- Enable safe visiting of families / friends to residents
- Provide additional activities/companionship for residents who are self-isolating
- Support deep cleaning and regular IPC audits being undertaken

**For full details see IPC funding list for further information**

**Please note when bringing new members of staff into your home, you are required to adhere to the Infection, Prevention and Control guidelines**

**Register your vacancies through the Skills House online form:**
