

VOLUNTEERS

The Covid-19 volunteering hubs have hundreds of trained volunteers available to support our frontline services during the pandemic. They are available to help out with the daily tasks that you may find difficult to manage at the moment. This could range from helping out with shopping, through to exercise including T'ai Chi, or singing and dancing. They are also happy to provide gardening services if your usual staff are self-isolating and they might also surprise your staff team with some home-baked cake!

If you'd like to arrange for a volunteer to help or even a surprise cake delivery, please use this form:

Your request will then be sent to the local hub to find you support.
