NATIONAL BOOKING SERVICE UPDATE

From today, text messages will begin to be sent to people in cohort 11, starting with 38 and 39 year olds, inviting them to book their vaccination appointments through the [National Booking Service](#). In line with [JCVI guidance](#), the National Booking Service now allows people in this age group, without an underlying health condition, to book into an appointment offering an alternative to the AstraZeneca vaccine. The new NBS functionality will also enable pregnant women to book appointments at a site that offers the Pfizer-BioNTech or Moderna vaccine following a series of screening questions.

In addition, the self-declare function that allows frontline eligible health and social care workers to book through the National Booking Service has been re-enabled from today. This is in line with JCVI guidance and the Green Book:

TESTING TIMES

Lee Paskin

Our Testing Managers, Lee and Jonathan, are departing the Covid-19 Support Team this week to return to their substantive roles as managers in the children's outdoor centres.

We want to take this opportunity to say thank you and let them know how grateful we are of all the amazing work they have done in the past fifteen months. From the creation of Marley Field testing site to the implementation of Lateral Flow Tests in the sector, Lee and Jonathan have been incredibly adaptable and so supportive. The positive feedback from Bradford's social care sector in respect of their support has been overwhelming.

Thank you to Lee and Jonathan and best of luck for the future!
